CAREER OBJECTIVE

To join internship where I can apply and share my knowledge as an aspiring Web Developer & Database Developer while continuously learning and enhancing my skills. I aim to contribute meaningfully to the organization's growth and development through dedication, innovation, and a strong commitment to continuous improvement and skill development.

EDUCATION

Tertiary:

Bachelor of Science in Information Technology (BSIT)	2022– Present
<i>Our Lady of the Sacred Heart College of Guimba, Inc.</i>	
Afan Salvador St, St. John, Guimba, Nueva Ecija	

Secondary:

Technical-Vocational-Livelihood (TVL)	2020 – 2022
<i>Galvan National High School</i>	
Galvan, Guimba, Nueva Ecija	

Junior High School	2016 – 2020
<i>Galvan National High School</i>	
Galvan, Guimba, Nueva Ecija	

PROFESSIONAL AFFILIATION

Junior Philippine Computer Society – National and Local Chapter | Member

<i>Our Lady of the Sacred Heart College of Guimba, Inc.</i>	2022 – Present
---	-----------------------

- Participated in national and local IT-related events, seminars, and activities.
- Engaged in initiatives that promote technological knowledge and collaboration among members.
- Involved in programs that support professional growth and development in the IT field.

WORK EXPERIENCE / TRAINING

Backend Developer | Automated Rice Leaf Disease Detection Through Image Processing 2024 – 2025

- Built and maintained the backend system for rice leaf disease detection using FastAPI.
- Developed secure API endpoints for the AI image scanner and system features.

- Implemented database structures, queries, and data handling for efficient system performance.
- Ensured system security by managing authentication, validation, and safe data processing.
- Integrated GPT API for intelligent analysis and automated disease interpretations.
- Conducted backend testing, debugging, and optimization for reliability.
- Collaborated with the team in system planning, development, and deployment.
- Strengthened expertise in Python, backend programming, API integration, and system security.

Academic IT Training | BSIT Coursework & Laboratory Activities 2023–2025

- Practiced backend development, networking, and database management.
- Applied cybersecurity practices and programming fundamentals in lab tasks.
- Performed system troubleshooting, software setup, and maintenance.

ICT Support | BSIT Coursework & Laboratory Activities 2023–2025

- Assisted in **setting up network connections**, including **RJ-45 cable crimping** and basic network configuration.
- Performed **basic troubleshooting** to resolve connectivity, hardware, and system issues on-site.

STRONG POINTS

- Strong logical reasoning and analytical problem-solving skills.
- Skilled in writing clean, efficient, and maintainable code.
- Experienced in **backend development** and **API creation**.
- Knowledgeable in secure coding, authentication, and basic web security.
- Proficient in debugging, troubleshooting, and system optimization.
- Strong understanding of database management and data handling.
- Familiar with **RESTful architecture** and **server-client communication**.
- Capable of **integrating external APIs, including AI-powered systems (GPT)**.
- Proficient in web technologies: **HTML5, CSS3, JavaScript, PHP, ASP.NET, Tailwind, FastAPI, Python, and C#**.
- Skilled in networking basics: **RJ45 crimping, cable testing, and Cat5/Cat6 installation**.
- Experienced in deploying and managing **live websites (Hostinger)**.
- Knowledgeable in software version control using Git.
- Able to create automation scripts to improve workflow efficiency.
- Familiar with Arduino and basic electronics applications.
- Fast learner, adaptable, and continuously improving programming skills.

CERTIFICATIONS

- Ethical Hacker | Cisco
- Data Analytics Essentials | Cisco
- Introduction to Data Science | Cisco
- Cybersecurity Essentials | The Linux Foundation
- Developing Secure Software | The Linux Foundation
- Understanding the OWASP® Top 10 Security Threats | The Linux Foundation
- Certification of Membership| JPCS
